

RUSSELL HAROLD EASY B.SC., M.Sc., Ph.D.

<http://easylab.acadiau.ca/home.html>

Canadian Citizen

CURRICULUM VITAE

EDUCATION

- 2005 - 2010 Ph.D. Biology Department, Dalhousie University, Halifax, NS, Canada
Thesis: *Changes in Atlantic Salmon (Salmo salar) Epidermal Mucus Protein Composition in Response to Sea Lice (Lepeophtheirus salmonis) Infection, Stress and Vaccination*
- 2003 - 2004 M.Sc. Biology Department, St. Mary's University, Halifax, NS, Canada
Thesis: *Taxonomy of Selected Species of Myxobolus (myxozoa) From Freshwater Fishes in Canada; Applications of Light Microscopy and Molecular Methods*
- 1996 - 1999 B.Sc. (Int. Sciences), Carleton University, Ottawa, Ontario, Canada
- 1997 Registered Microbiologist, Canadian College of Microbiologists, Vancouver, BC, Canada
- 1986 - 1989 Biochemical Technology/Biochemist, Algonquin College, Ottawa, Ontario, Canada
Thesis: *High Density and Low-Density Lipoproteins and Their Role in Human Pathology*
- 1980 - 1982 Pure Sciences Diplôme, CEGEP, Hull, Quebec, Canada

Theses

RH Easy. 2010. Thesis: Changes in Atlantic salmon (*Salmo salar*) epidermal mucus protein composition in response to sea lice (*Lepeophtheirus salmonis*) infection, stress and vaccination (Ph. D).

RH Easy. 2004. Thesis: Taxonomy of selected species of *Myxobolus* (Myxozoa) from freshwater fishes in Canada; Applications of light microscopy and molecular methods (MSc.).

RH Easy. 1989. High Density and Low-Density Lipoproteins: Role in Human Disease (Biochemical Technology Diploma).

Continuing Education

- a. Equity Training
- b. Scuba Diver - Advanced certificate
- c. Seafarers Medical Certificate
- d. Animal Care Certificate
- e. Cardiopulmonary Resuscitation Certificate
- f. Class G Drivers Licence
- g. St. John's Ambulance First Aid Certificate
- h. Sea kayaker/single person rescue certificate
- i. WHMIS Certificate

PROFESSIONAL APPOINTMENTSAcadia University

- 2024 – present: Full Professor: Department of Biology
- 2021 – 2024: Associate Professor Tenured: Department of Biology
- 2019 - present: Associate Professor - Tenure Track: Department of Biology
- 2017 - 2019: Associate Professor - Contract Limited Term: Department of Biology
- 2014 - 2017: Assistant Professor - Contract Limited Term: Department of Biology

Courses

BIOL 4683 – The Biology of Cancer
BIOL 3413/4413 - Research Topics
BIOL 4996 - Honours Thesis
BIOL 3633 - Topics in Cell Biology
BIOL 3613 - Principles of Genetics
BIOL 3623 - Molecular Genetics and Genomics
BIOL 2013 - Cell and Molecular Biology
BIOL 3013 - Natural History and Field Biology
BIOL 1813 - Human Biology
BIOL 3113 - Vertebrate Diversity

Other Employment

- 2009 - 2012: Post-Doctoral Fellow/Research Associate: Department of Biology
St. Mary's University
- Post-Doctoral Fellow: Department of Psychology/Neuroscience
Dalhousie University

- 2002 - 2014:
Courses taught Guest Lecturer - Dalhousie University, Halifax, NS
BIOL 1505 - Integrated Science [Microbiology, Cell Biology, Molecular Biology, Genetics, Immunology, Animal physiology]
- 2012 - 2014:
Courses taught Guest Lecturer - Mount St. Vincent University, Halifax, NS
BIOL 372L - Molecular Biology
- 2004 - 2008:
Courses taught Guest Lecturer - St. Marys University, Halifax, NS
BIOL 4449.1 - Community Ecology Course - Joint Biology/Sociology China [Beijing, Xian, Hong Kong]
BIOL 3414.2 - Environmental Microbiology
BIOL 2398.1 - Introduction to Microbiology
BIOL 4419.1 - Molecular Biology
- 2000 - 2008:
Research Laboratory Manager - National Research Council, Institute for Marine Biosciences, Halifax, NS
- 1990 - 2000:
Biologist - Health Canada, Canadian Science Centre for Human and Animal Health, Winnipeg, MB and Ottawa ON

Volunteer

- 2018 - present: Chair Biology, Science Atlantic
- 2017-2021: Board member – Science Atlantic
- 2016 - present: Consultant for Aqualitas/Finleaf technologies
- 2016 – 2021: Director: Blue Dream Project
- 2016 – present: SMILE participant

STUDENT SUPERVISION – ACADIA UNIVERSITY**Graduate Students****Master's Students/Theses:**

Emma-Jean Freeman (Co-Supervisor with Dr Don Stewart). MSc candidate. 2022. An exploration of the parasitic relationship between freshwater mussel glochidia and fish hosts and the impacts on fish health and survival in an aquaculture setting.

McKenzie Brown (Supervisor). MSc candidate. 2021. Characterizing differential effects of stress on CBD Treatment using a Zebrafish Model.

Sam Nunn (Supervisor). MSc candidate. 2021. Exploring differential gene expression in the MHC of Striped Bass (*Morone saxatilis*) in response to mercury contamination.

Taylor Swanburg (Co-Supervisor with Dr Laura Ferguson). MSc candidate. 2021. Detecting the Spread of Invasive Mosquitoes and Disease Potential in Nova Scotia

Veronique Plante (Committee member). MSc candidate. 2020. Supervised by Dr Shawkat Ali and Dr Allison Walker. *In vitro* elimination of raspberry viruses from virus- infected raspberry plants using a combination of thermotherapy and cryotherapy as well dsRNA-induced gene silencing.

Zhe Yang (Co-Supervisor with Dr Trevor Avery & Dr Glenys Gibson). 2022. Environmental DNA: Identification of a striped bass diet using molecular tools.

Victoria Ivey (Committee member). MSc. Supervised by Dr Kirk Hillier. 2022. Molecular and behavioural plasticity in the pheromone response of the corn earworm moth *Helicoverpa zea*.

Carter Feltham (Co-Supervisor with Dr Stephen Mockford). MSc. 2020. Genetics of a new Blanding's turtle population in Nova Scotia.

Elizabeth Tsitrin (Committee member). MSc. 2019. Supervised by Dr Mike Stokesbury. Post-spawning migration and predicted encounter rates with in-stream tidal turbines of Atlantic herring (*Clupea harengus*) and Alewife (*Alosa pseudoharengus*) in Minas Basin

Honours BSc Students/Theses:

Roman Javorek. 2023. Expression of mmp and timp genes in the common sea star, *Asterias rubens*, congruent with the onset of sea star wasting syndrome

Allison Murphy. (Co-supervisor with Dr Brian Wilson). **2023.** Toward healing waters: inflammation in the gut and brain and the role of insl5 in recovery from traumatic brain injury in zebrafish

Natalie Campbell. (Co-supervisor with Dr Brian Wilson). **2023.** Effect of Insulin-like peptide 5 and Relaxin-3 on Brain-Derived Neurotrophic Factor Immunoreactivity in Brain-Injured Zebrafish, *Danio rerio*

Mia Lauzon. (Co-Supervisor with Dr Laura Ferguson). 2022. The impacts of winter climate change on immune gene expression in blacklegged ticks, *Ixodes scapularis*

Sydney Zakutney. (Co-Supervisor with Dr Brian Wilson). 2022. Impact of Stress on Neurogenesis in Zebrafish

Emma-Jean Freeman. 2021. An exploration of the impacts of temperature stress on an agricultural insect pest, the oblique banded leafroller (*Choristoneura rosaceana*).

Cedric Gravel. 2021. The vascular and neuronal effects of astrocytic *hmgbl* in the cerebral cortex.

Josh Klum. (Co-Supervisor with Dr Trevor Avery). 2021. Differential antifreeze glycoprotein expression among tissue types in *Microgadus tomcod*

Melanie Smith. 2020. Exploring expression of *tp53* in Zebrafish, *Danio rerio*, in response to exogenous cannabinoids and stress.

Jenna Nauss. 2020. Exploring differential gene expression in striped bass (*Morone saxatilis*) in response to mercury exposure.

Sydney Tonner (Co-Supervisor with Dr Dave Shutler). 2020. Putative stress biomarkers in Leach's storm-petrel (*Oceanodroma leucorhoa*) during the breeding season.

William Bauer (Co-Supervisor with Dr Don Stewart). 2019. A tale of two mussels: molecular characterization of unionid mussels in Guanacaste province, Costa Rica.

Aileen Feschuk (Co-Supervisor with Dr Todd Smith): 2019. Exploring differential gene expression of antimicrobial peptides of the green frog, *Rana clamitans*.

Kassandra Kelbratowski (Co-Supervisor with Dr Kirk Hillier): 2019. Plasticity of pheromone chemistry and female olfactory sensitivity in the tobacco budworm moth *Heliothis virescens*.

Allie Scovil. 2019. Exploring differential gene expression during wound healing and regeneration in *Asterias rubens*.

Jack Guthrie (Co-Supervisor with Dr Brian Wilson): 2019. The effects of stress on the endocannabinoid receptor system in zebrafish (*Danio rerio*).

Casi Sutherland (Co-Supervisor with Dr Dave Shutler):2019. Identification of stress biomarkers in leach's storm petrels (*Oceanodroma leucorhoa*) on Bon Portage Island, Nova Scotia. Did not complete due to acceptance into veterinary school.

Zachary Visser. 2019. Differential Gene Regulation of promising anti-cancer compounds in zebrafish (*Danio rerio*). Chemistry major.

Anna Murphy (Co-Supervisor with Dr Mike Stokesbury): 2019. Identification and characterization of protease activity and protein biomarkers of stress in the epidermal mucus of the Atlantic sturgeon (*Acipenser oxyrinchus oxyrinchus*).

Alexandra Brown 2018. Identification and characterization of northern squid species using quantitative real time PCR.

Claire Bullock (Co-Supervisor with Dr Todd Smith): 2018. Influence of epidermal mucus proteins from green frogs, infected by *Hepatozoon clamatae*, on attraction of the mosquito, *Culex territans*.

Hillary Dort (Co-Supervisor with Dr Trevor Avery): 2018. Proteomic changes in epidermal mucus profiles of striped bass (*Morone saxatilis*) as a consequence of catch-and-release.

Cooper Coats (Co-Supervisor with Dr Jason Berman): 2018. Exploring CRISPR-Cas9 as a tool for editing zebrafish genomes in the study of childhood diseases.

Makenzie Branch (Co-Supervisor with Dr David Langelaan). 2018. Optimization, purification and characterization of multiple transcription factors play a major role in up-regulation of melanocytes.

Roshni Kollipara (Co-Supervisor with Dr Jon Geske). 2018. Development of diagnostic tools for human and animal health.

Emma Blanche (Co-Supervisor with Dr Sophie Cardinal). 2018. Developing molecular and morphological tools to better understand our beneficial native pollinators.

Leah MacLean. 2017. Differential gene expression of transcription factor *FoxP3* in zebrafish (*Danio rerio*); Exploring environmental effects on autoimmunity.

Gillian Johnstone (Co-Supervisor with Dr Mark Mallory). 2017. Exploring stress biomarkers in an avian model.

Alexia Hawkey-Noble (Co-Supervisor with Dr Martin Kalmikoff). 2017. Microbiological flora of wild vs farmed Atlantic salmon (*Salmo salar*).

Jessica Fahey (Co-Supervisor with Dr Hong Shu). 2017. The expression of thermotolerant *Campylobacter* species recognized by a monoclonal antibody M1169.

Research Topics Students:

2022

Blake Hewins-Higgins: Proteomic analysis of sea star wasting disease.

Roman Javorek: Differential gene expression in key molecular signatures of sea stars experiencing sea star wasting disease.

Rob Fioretti: What's killing the silversides off Southwest Cove, Nova Scotia.

Allison Murphy. Exploring parasites of freshwater mussels in Nova Scotia.

Roman Javorek: Exploring Sea Star Wasting Disease; Parasite, bacteria or virus?

Holly Turner. The effects of temperature on an invasive species in Southwest Nova.

2021

Victoria Enserink. Sea star wasting disease and sea star associated densovirus.

Cedric Gravel. Optimization of PCR conditions for glyceraldehyde-3-phosphate dehydrogenase using Striped Bass (*Morone saxatilis*) tissue.

Meghan Johnston. Temperature range and expression of stress biomarker HSP30 in Leach's Storm Petrels (*Oceanodroma leucorhoa*).

Natalie Scheiring. The amplification of sea star-associated densovirus in *asterias rubens* infected with sea star wasting disease.

2020

Jordi Chaffer. Optimizing primers and employing end-point PCR to detect presence of *FoxP3* in zebrafish (*Danio rerio*) following an increase in dietary sodium.

Victoria Gallant. Essential oils repellency to ticks sensory regions and gene expression for cytochrome P-450 monooxygenase, acetylcholinesterase, and glutathione-S-transferase.

Emily MacNeil. The use of molecular tools to begin the identification of an unknown parasitic cyst found on a guitarfish off the coast of California.

Rebecca Mader. Identification of a potential antifreeze glycoprotein gene in striped bass, *Morone saxatilis*, from the Bay of Fundy.

Calista Richard. PCR analysis of enzymes Faah2a, Faah2b, and NAPEPLD involved in the production of anandamide.

Olivia Shive. The use of SDS-page to identify and compare paralytic toxins in shellfish from the local market.

Alex Surette. Determining the effects of cannabiniol on the expression of MHC Class I and II in *Morone saxatilis*.

Sydney Tonner. Exploring the presence of sea star associated densovirus in various species of diseased and healthy sea star tissues.

2019

William Bauer. The effects of the Acadia genebank's cryopreservation procedure on methylation of disease-resistant genes in grapevine.

Kristen Crewe. Oral bacteria diversity of *Canis familiaris*, Dorset *Ovis aries* and humans.

Jack Guthrie. Investigating and attempting to sequence antifreeze proteins I-IV in striped bass, *Morone saxatilis*.

Hillary Maillet. Investigation of possible protein biomarkers of stress in *Oceanodroma leucorhoa* using a proteomic approach.

Jenna Nauss. Investigation of parasite X, found in host species *Rhinobactos productus*, using molecular techniques.

Michaela Okamura. Extracting, quantifying, and analyzing proteins extracted from frozen feces of *Alces*.

Yoram Scholl. Marketing Plan: Lobster Shell Soil.

Allie Scovil. Exploring behavioural tendencies and effects of stress on the common sea star, *Asterias rubens*: Genomic analyses through DNA barcoding and sequencing.

Melanie Smith. Unknown ectoparasites collected from the gills and fins of the genera *Fundulus* and *Gillichtrys*.

Zachary Visser. The exploration of immune-related genes and the interplay with a resident/transient gut microbiome within the tobacco hornworm (*Manduca sexta*).

2018

Emma Blanche. Exploring sex differences in expression of FoxP3 in response to a high-salt diet using a Zebrafish (*Danio rerio*) model.

Hillary Dort. Using DNA barcoding to identify unknown ectoparasites present on Striped Bass (*Morone saxatilis*)

Varun Dhunna. The use of molecular Techniques Including Polymerase Chain Reaction, Gel Electrophoresis and Amplicon Sequencing in the Identification of a *Gyrodactylus* spp.

Cooper Coats. Drink like a fish: effects of chronic alcohol exposure on associative learning in adult zebrafish (*Danio rerio*).

Aileen Feschuk. Investigating the proteins in mucus secreted by *Cortinarius* spp. In Nova Scotia.

Denver Gilbert. Identifying stress biomarkers in the Nova Scotia population of white-tailed deer (*Odocoileus virginianus*).

Riley Lockhart. Identifying the role of mushroom mucus: A genomic analysis of *Cortinarius spp.*

Hillary Maillet. Investigation of possible protein biomarkers of stress in *Oceanodroma leucorhoa* using a proteomic approach.

Mark O'Reilly. Isolation and sequencing of the partial coding sequence of an antifreeze glycoprotein (AFGP) gene in *Microgadus tomcod* and suggestions for novel identification of AFGP genes.

Liam Rappoldt. Studying the chemical ecology of stress communication in zebrafish (*Danio rerio*) by protein secretions in epidermal mucosa.

Alexandra Candice Robart. (Co-Supervisor with Dr Laura Ferguson). Investigation of the presence of *Wolbachia spp.* in several Lepidoptera and *Drosophila* species using molecular techniques: A research topics study.

Rebecca Strachan. Study on the effects of stress on protein content in the epidermal mucus of zebra fish (*Danio rerio*).

Taylor Luck. Media testing in an aquaponics system: hydroton expanded clay pellets in comparison to recycled glass growstones.

Emily Anderson. Determining partial DNA sequence of *Ligictaluridus monticellii* using DNA extraction, PCR and gel electrophoresis with primers from the *Ancyrocephalidae* family.

2017

Chantalle Byron. Identification of stress biomarkers in white-tailed deer in nova scotia and their relation to environmental factors.

Makenzie Branch. Isolation and identification of the robust and diverse microbial colonies found within a healthy aquaponics system.

Alexandra Brown. Proteomic Changes in Epidermal Mucus Profiles of *Morone saxatilis* in Response to Stress.

Claire Bullock. A preliminary exploration of the mucosal proteome of *Rana clamitans* with and without the presence of a low *Hepatazoon clamatae* infection.

Cooper Coats. The effects of alcohol on the structure and function of the blood brain barrier in adult zebrafish (*Danio rerio*).

Todd Dow. A discovery study of the effects of stress on protein content in the epidermal mucus of zebra fish (*Danio rerio*).

Alexia Hawkey-Noble. Phylogenetic insight on the channel catfish parasite *Ligictaluridus mirabilis*.

Gillian Johnstone. Phylogenetic determination of *Ligictaluridus pricei*.

Roshni Kollipara. Modifying fructose transporters in *Escherichia coli*.

Jordan Kruisselbrink. Phylogenetic determination of the fish parasite *Ligictaluridis bychowskyi*.

Leah MacLean. Molecular analysis of *Ligictaluridis* phylogeny with emphasis on *L. bychowskyi*.

Rebecca Strachan. Study on the effects of stress on the protein content of the epidermal mucus of zebra fish (*Danio Rerio*).

WORKSHOPS

(Development and Implementation)

- a. Molecular Typing of Bacterial Pathogens [Health Canada – Ottawa, ON/Winnipeg, MB]
- b. Polymerase Chain Reaction/RFLP (Training seminars and workshops)
- c. Pulsed Field Gel Electrophoresis, Buenos Aires, Argentina, Winnipeg MB, Ottawa, ON
- d. Molecular Phylogenetics workshops/ Systematics

GRANTS/RESEARCH FUNDING

2022-23

Funds: \$5,000

Project: An exploration of the parasitic relationship between freshwater mussel glochidia and fish hosts and the impacts on fish health and survival in an aquaculture setting.

Co-applicant: Dr Don Stewart

Source: Acadia Raddall Fund

Funds: \$4,835

Project: The impacts of winter climate change on immune gene expression in blacklegged ticks, *Ixodes scapularis*

Co-applicant: Dr Laura Ferguson

Source: Acadia Raddall Fund

Funds: \$4,835

Project: The impacts of winter climate change on immune gene expression in blacklegged ticks, *Ixodes scapularis*

Co-applicant: Dr Laura Ferguson
Source: Acadia Raddall Fund

Funds: \$10,000
Award: Visitorship Award
Source: Harrison McCain Foundation

Funds: \$5,000
Project: Investigating the potential for insect frass to increase Drought tolerance across crops
Source: Engage Grant – in collaboration with Dr Mat Vankoughnett
Source: Industrial Research Assistance Program

Funds: \$25,000
Project: Investigating the potential for insect frass to increase Drought tolerance across crops
Source: Engage Grant – in collaboration with Dr Mat Vankoughnett

Funds: \$4,000
Project: Exploring physiological changes in Chain pickerel (*Esox niger*) and Brook trout (*Salvelinus fontinalis*) in response to habitat shift
Source: Acadia University Research Award Fund 25.55

Funds: \$488,726
Project: Predicting the effects of climate change on the microbial and chemical control of agricultural pests such as obliquebanded leafroller in apple
Source: National Sciences and Engineering Council – Alliance Grant – in collaboration with Dr Shelley Adamo, Dalhousie University, Dr Suzie Blatt, Kentville NS Research Station, Dr Ray Spitteri, University of Saskatchewan.

Funds: \$47,500 X 1, \$37,000 X 4
National Sciences and Engineering Council – Discovery Grant (2019) - 5-year Grant – extended to 2027.

Funds: \$4,000
Project: Exploring thermal stress in chain pickerel in a Nova Scotia tributary
Source: Acadia University Research Fund 25.55 (URF)

Funds: \$47,500 X 1, \$37,000 X 4
Project: Identification of protein stress biomarkers in epidermal mucus of marine fishes
Source: National Sciences and Engineering Council - Discovery Grant

2019 - 2021

Funds: \$47,000
Project: Purchase of a Chemi-Doc Imaging System

Co-applicants: Don Stewart, PhD (Professor: Acadia), Allison Walker, PhD (Associate Professor: Acadia), Trevor Avery, PhD (Professor: Acadia)
Source: National Sciences and Engineering Council (NSERC) Research and Tools, Instruments (RTI)

Funds: \$250,589

Project: Assessing mosquito range expansion and vector potential in Nova Scotia:
Co-applicants: Laura Ferguson, PhD (post-doc: Dalhousie), Todd Smith, PhD (Professor: Acadia), Kirk Hillier, PhD (Professor: Acadia).
Source: Public Health Agency of Canada, Infectious Disease and Climate Change Fund (IDCCF)

Funds: \$5,000

Project: Exploring alternative lobster bait/Molecular analyses
Co-applicant: Roland Leblanc, Meteghan, NS
Source: Springboard

Funds: \$9,000

Co-applicants: Don Stewart, PhD (Professor: Acadia), Allison Walker, PhD (Associate Professor: Acadia).
Source: Acadia Raddall Fund

Funds: \$55,000

Project: THC and CBD ratios in cannabis grown in soil or aquaponic systems
Co-applicant: Brian Wilson, PhD (Professor: Acadia)
Source: MITACS

2017 - 2019

Funds: \$40,000

Project: Exploring wild yeasts in Nova Scotia: Part 2 - Proteomics
Co-applicant: Allison Walker, PhD (Associate Professor: Acadia)
Source: Nova Scotia Business Institute: Tier 1 and 2 funding

2018

Funds: \$5,000

Project: Development of an artificial lobster attractant
Source: Springboard

Funds: \$5,000

Project: Studies on White Tailed Deer (*Odocoileus virginianus*) in Nova Scotia
Source: Department of Natural Resources (DNR)

Funds: \$5,000

Project: Monitoring Striped Bass – stress effects of catch-and-release.
Source: Acadia University Research Fund 25.55

2017

Funds: \$40,000

Projects: Development of an artificial lobster bait: Epidermal mucus protein analyses of baitfish.

Source: Nova Scotia Business Institute Two successful grants with industrial partners.

Funds: \$45,000

Project: Setup, maintenance and research of an aquaponics facility for plant development.

Source: Innovacorp

Funds: \$15,000

Project: Development of an aquaponics facility at Acadia University

Source: Industrial Research Assistance Program (2016/17) Three successful Science and Technology Assistance Grants.

Funds: \$9,000

Project: Identification of Stress Markers in White Tailed Deer (*Odocoileus virginianus*) in Nova Scotia.

Source: The Nova Scotia Habitat Conservation Fund

Funds: \$5,000

Project: Monitoring Striped Bass - stress effects of catch-and-release.

Source: Acadia University Research Fund 25.55

2016

Funds: \$5,000

Project: Monitoring Striped Bass - stress effects of catch-and-release.

Source: Acadia University Research Fund 25.55

2010

Funds: \$100,000 (Contributor)

Project: Exploring changes in gene expression in songbirds in response to maternal or paternal investment.

Source: Nova Scotia Health Research Foundation (NSHRF)

2008 – 2012

Funds: (\$400,000)

Project: Gyrodactylosis in freshwater fishes/Author of molecular/proteomics component

Source: National Sciences and Engineering Council (NSERC)

Note: I also have experience in writing grants for non-profit organizations (>\$80,000). I wrote annual components of Canadian Heritage Grants that covered programming aspects of the

Lunenburg Folk Harbour Society where I acted as artistic director for 7 years. These grants were essential to the organization and allowed continuation of the festival for over 30 years.

CONFERENCE PRESENTATIONS

(Bold Indicates student; Asterisk indicates speaker)

Russell Easy*. 2024. Not Easy to Stress: Biomarker Discovery and the Fish. University of the Pacific, Stockton, California. Invited speaker.

Russell Easy*. 2024. The Easy Life: Biomarker Discovery in a Stressful World. University of Eastern Finland, Joensuu, Finland. Invited speaker.

Russell Easy*. 2023. Alternative Methods for Exploring Stress in Fish. University of New Brunswick, Saint John. Invited speaker.

Russell Easy*. 2023. Exploring Biomarkers of Stress in Fish: Challenges in Downtown Dwellings. American Fisheries Society, Grand Rapids, Michigan, USA. Invited speaker for Symposium.

Russell Easy*. 2023. Exploring Biomarkers of Stress in Fish. Universidad Nacional Costa Rica. Invited speaker.

Mia Lauzon*, Easy, R., Ferguson, L. 2023. Impacts of Pathogen Infection on the Winter Behaviour and Physiology of the Black-Legged Tick, *Ixodes scapularis*. Science Atlantic Annual Meeting. Saint John, New Brunswick. [Won best student oral presentation].

Emma-Jean Freeman*, Easy, R., Stewart, D., 2023. An Exploration of Methods to Measure Stress in Aquaculture Fish Caused by Parasitic Freshwater Mussel Glochidia. Science Atlantic Annual Meeting. Saint John, New Brunswick.

Sam Nunn*, Easy, R., 2023. Exploring Immune Gene Expression in Striped Bass (*Morone saxatilis*) in Response to Mercury Contamination. Science Atlantic Annual Meeting. Saint John, New Brunswick.

Mckenzie Brown*, Easy, R., 2022. Investigating the effects of stress and CBD treatment on zebrafish epidermal mucus protein composition. Atlantic International Chapter of the American Fisheries Society. Newry, Maine, USA.

Sam Nunn*, Easy, R., 2022. Exploring differential expression of MHC related genes in Striped Bass (*Morone saxatilis*) in response to mercury contamination. Atlantic Chapter of the American Fisheries Society. Newry, Maine, USA.

H. Dort, T. Avery, Easy RH*. 2022. Identifying Epidermal Mucus Proteins in Striped Bass (*Morone saxatilis*) as a result of Angling Stress. Atlantic International Chapter of the American Fisheries Society. Spokane, Washington, USA.

Freeman, E.G*, Adamo, S., Blatt, S., Easy, R.H. Canadian Society of Zoology. Moncton, NB (Virtual). 2022. An Exploration of the Impacts of Temperature Stress on an Agricultural Insect Pest, the Oblique Banded Leafroller (*Choristoneura rosaceana*).

Swanburg, T. L.^{1*}, Easy, R. H.¹, Hillier, N. K.¹, Smith, T. G.¹, Ferguson, L. V.¹ Canadian Society of Zoology. Moncton, NB (Virtual). 2022. Detecting the Spread of Invasive Mosquitoes and Disease Potential in Nova Scotia

Russell Easy*. 2022. Stress: What is it good for? Lesson from fish. Universidad Nacional Costa Rica. Invited talk.

Freeman, E.G*, Adamo, S., Blatt, S., Easy, R.H. An Exploration of the Impacts of Temperature Stress on an Agricultural Insect Pest, the Oblique Banded Leafroller (*Choristoneura rosaceana*). 2022 . Science Atlantic. (Virtual)

Cedric Gravel*, Russell H Easy, Baptiste LaCoste. The Vascular and Neuronal Effects of Astrocytic HmGB1. Science Atlantic. (Virtual)

Russell Easy. 2021. The Parasitic Freshwater Mussel. Back to Costa Rica. Atlantic Canada Association of Parasitology, Pictou, NS.

Neuropeptide regulation of anti-diuresis: the role of CAPA in the female mosquito, *Aedes aegypti*. 2021. **Bauer, W. G.^{1*}**, Easy, R. H.¹, Quesada, R. C.², Arias, S.², Stewart, D. T.¹ Sajadi, F.^{1*}, Paluzzi, JP.¹ (Accepted but not presented due to COVID)

DNA Barcoding Reveals one Invasive, and Additional Previously Undescribed Species of Unionids. 2021. **Bauer, W. G.^{1*}**, Easy, R. H.¹, Quesada, R. C.², Arias, S.², Stewart, D. T.¹ (Accepted but not presented due to COVID)

Zhe Yang*, Russell Easy, Trevor Avery. 2020. Identification and quantification of Atlantic Salmon *Salmo salar*, Arctic char *Salvelinus alpinus*, Cod *Gadus morhua*, and Capelin *Mallotus villosus* in Striped Bass diets in Labrador, Canada. Society for Integrative Biology. Austin, Texas.

Russell H Easy*. 2019. Exploring Parasite Diversity in Fish: A Molecular and Morphological Journey. Atlantic International Chapter of the American Fisheries Society, Cardigan, PEI.

Aileen Feschuk*, Todd Smith, Russell Easy. 2019. AMPing up the temperature in green frogs. Atlantic Canada Association of Parasitology, Pictou, NS.

William Bauer*, Don Stewart, Russell Easy. 2019. The mussel larval stage: how an underappreciated parasite is a conservation issue. Atlantic Canada Association of Parasitology, Pictou, NS.

A Scovil*, RH Easy. 2019. Exploring differential gene expression during wound healing and limb regeneration in the common sea star, *Asterias rubens*. Canadian Society of Zoology. Windsor, ON,

A Scovil*, RH Easy. 2019. Exploring differential gene expression during wound healing and limb regeneration in the common sea star, *Asterias rubens*. Association for Graduate Studies Conference, Acadia University.

Z Visser*, RH Easy. 2019. Gene Expression Profiles of Potential 6-4-Hydroxypiperidino naphthalen-2-ol-based Selective Estrogen Receptor Modulators in Banded Killifish *Fundulus diaphanous*. Association for Graduate Studies Conference, Acadia University.

J Guthrie*, B Wilson, RH Easy. 2019. The effects of handling stress on cannabinoid receptors in killifish, *Fundulus heteroclitus*. Association for Graduate Studies Conference, Acadia University.

A Murphy*, RH Easy, M Stokesbury, 2019. Identification and characterization of protease activity and potential protein biomarkers of stress in the epidermal mucus of the Atlantic sturgeon *Acipenser oxyrinchus*. Association for Graduate Studies Conference, Acadia University. [Won best poster award]

C Feltham*, S Mockford, RH Easy. 2019. A new population of Blanding's turtles *Emydoidea blandingii* in Kespukwitk. Association for Graduate Studies, Acadia University.

H Dort*, T Avery, RH Easy. 2018. Proteomic changes in epidermal mucus profiles of striped Bass (*Morone saxatilis*) as a Consequence of Angling Stress. Atlantic International Chapter of the American Fisheries Society. Vergennes, Vermont, USA.

H Dort*, RH Easy. 2018. Solving for Parasite X: Morphological and Molecular Identification of Unknown Parasites in the Shovelnose Guitarfish *Rhinobatos productus*. Atlantic Canada Association of Parasitology, Pictou, NS.

E Blanche*, RH Easy. 2018. Viral spread of Black Queen Cell Virus in managed and wild bees in Canada. Science Atlantic. Atlantic Canada Association of Parasitology, Pictou, NS.

PROFESSIONAL MEMBERSHIPS

- a. Canadian Society of Ecology and Evolution (CSEE)

- b. Society for Integrative and Comparative Biology (SICB)
- c. American Society for Parasitologists (ASP)
- d. Canadian Society for Zoology (CSZ)
- e. Pan American Marine Biotechnology Association (PAMBA)

SERVICE – UNIVERSITY AND COMMUNITY

- a. Patient Care Advisor – Cancer Care Team – Nova Scotia Health Authority
- b. Appointed: NSERC Scholarships and Fellowships Selection Committee for Cellular and Molecular Biology for a three-year term (2022-present)
- c. President Atlantic International Chapter of the American Fisheries Society (2022-present)
- d. Honours Coordinator Acadia University (2018-present)
- e. Acadia Faculty Representative Science Atlantic (2017-present)
- f. Presidential Appointee Acadia Sabbatical leave committee (2020-22)
- g. Member Acadia Rhodes Awards Committee (2019-present)
- h. Board member Science Atlantic (2018-2021)
- i. Chair Science Atlantic, Biology (2018-2022)
- j. Vice President Atlantic International Chapter of the American Fisheries Society (2017-2022)
- k. Co-coordinator Bon Portage Field Course – Acadia University (2017-2020)
- l. Director Blue Dream Project (2017-2022)

Other activities:

- m. Lectures and presentations for Scientists in Schools (Manitoba, Ontario, Nova Scotia,
- n. Nunavut - > 100 presentations and science fair judging
- o. Yearly presenter for Association of Science Teachers of Nova Scotia
- p. Canada Wide Science Fair: (Captain and co-captain)
- q. BioBlitz – Education Coordinator – St. Mary's University
- r. Outreach Committee – St. Mary's University
- s. Artistic Director for Lunenburg Folk Harbour Society, Lunenburg, NS
- t. Director at large Lunenburg Folk Harbour Society, Lunenburg, NS
- u. Volunteer of the Year - Town of Lunenburg
- v. East Coast Music Awards (ECMA) Nominee for Event of the Year
- w. Musician/performer mentor East Coast Music Association
- x. Volunteer member of Chester Playhouse, Chester, NS. Volunteer of the Year (2008)
- y. Member of School Advisory Council Southwest Regional School Board, Chester Basin, NS [Secretary]
- z. Volunteer as scientific staff with the Bedford Institute of Oceanography for Hudson Research Cruise, Halifax, NS
- aa. Instruction and demonstration of scientific techniques to the public in open-house forums including Sci –Trek (CSCHAH), Winnipeg, MB

- bb. Instruction and demonstration of rehabilitation activities with the Rehabilitation Institute of Canada, Ottawa, ON (1986-1989)

MEDIA INTERVIEWS

(While at Acadia)

February 2019: Science Atlantic Interview. <https://scienceatlantic.ca/member-story-entry-one-Dr-russell-easy/>

February 2019: Interview with Rural Delivery – Yeast project

December 2018: CTV Atlantic Live TV interview discussing Saltbox: Acadia partnership to discuss cultivation and proteomic characterization of wild yeasts.

December 2018: Chronicle Herald Interview for yeast project. See <https://www.thechronicleherald.ca/news/local/acadia-profs-south-shore-brewer-collaborate-to-cultivate-nova-scotia-wild-yeast-268196/>

October 2018: Radio interview with News 95.7 discussing yeast project. See <https://www.halifaxtoday.ca/local-news/craft-brewery-experimenting-with-local-yeast-strains-1082880>

November 2016: Interview Information Morning (with Don Connolly) discussing stress research on white-tailed deer in Nova Scotia. See <https://www.cbc.ca/news/canada/nova-scotia/deer-liver-research-acadia-university-nova-scotia-1.3839758>
